# ABOUT US

Muskaan-PAEPID was started in 1982 by parents and professionals with the intention of filling up a void in required services and facilities for children and adults with intellectual disability (ID) and their families. Muskaan and is well known for its pioneering work in the field of providing training and work opportunities to adults with ID. Family support, assisted living, awareness and advocacy are other areas of work of the organization. After receiving training in various skills, our students work within the Supported Work Centers at Muskaan in distinct units like stationary, bakery etc. creating products. These products show their capabilities, capacities and their ability for diligent hard-work. Students have also secured employment outside Muskaan with partner organizations in various industries.
